The Caddy

It is the perfect bag to have beside you on the sofa with all your crafting supplies within reach. When you are leaving for a quilting bee, knitting group or other craft activity just pick it up by the nice handle and you will know you have everything with you. The bag is easy to make even for beginners. This class is a lot of fun and you will take a finished bag home with you!

The Nora Bag

This is my favorite bag. It has 2 big zipper pockets and a lot of room to always have everything you need with you. If you are scared of zippers this might be the perfect chance to learn a new way to do it! The bag will be finished during the workshop so you will take the finished bag home with you at the end of the day!

13 of November, 'T Quiltgebeuren in Brielle, Holland

The Nightingale Bag

The Nightingale bag is inspired by the old fashioned doctors bag. It is a workshop for the experienced seamstress, so if you would like a new challenge and some new tips and tricks this might be an interesting workshop for you. The bag will be finished in one day with some homework to prepare before the class.

17th of November Aztec-Rose in Hendrik Ido Ambacht, Holland

Small Handbag

A workshop where we will make a small handbag. You will learn to make the unique handles which you can make for any bag. The bag will be finished in the workshop and you will take a beautiful bag home with you!
